poly-control
Building and Home Control

The perfect partner for your Poly-Lock or Z-wave network

The Poly-Pad is an external keypad which can be used for controlling your Poly-Lock or scenarios in your Z-wave network

The Poly-pad is 100% wireless and can be mounted anywhere you like both internal and external.

When the poly-Pad is connected to a gateway, it can be controlled from anywhere in the world.

This making it possible for you to change the pin numbers in your Poly-Pad without having to be home.

You can access your Poly-Pad from the Iphone or Android applications and the webinterface, thus making the Poly-pad very user friendly.

The Poly-Pad has a buzzer for responds on the codes which are punched in. Therefore you will always know if the keypad has registered you enterings.

The Poly-Pad is powered by battery, and this battery has been tested to work for 1 year or more.

Z-wave is the wireless protocol used for the Poly-Pad, all data sent to the keypad is off course encrypted.

Demo videos are found on our homepage.

Prices for wholesales and distribution are send upon request.
